Italy Will Do Much For a Settlement of Adriatic Problems, Nitti Says
Still Hopes That the Jugo-Slavs Will Reconsider Their Stand

(A. P. Special Cable.)
Paris, Jan. 22.—Italy will demand the Treaty of London only when all other means of settling the Adriatic question have been tried and found futile, according to a statement by Premier Nitti to a representative of the Echo de Paris.
"The reply of the Juggular Government to the note of the Supreme Council relative to conflicting claims on the eastern shores of the Adriatic does not satisfy us," the Premier is quoted as saying, "but we have gone to the extreme limit in making concessions. The world should realize that, for the sake of peace, we renounce claims, which were given to us by the Treaty of London. We hope that, after a few days' further reflection, the Jugo-Slavs will send an acceptable answer."
Premier Nitti expects to return to Rome soon to resume his work in the Peace Conference.
The date of my return will depend on internal events in Italy and England," he said. "We will agree upon a time for Premier Lloyd George and myself are most anxious to settle pending questions. These include those relative to the Adriatic, Asia Minor, Turkey and the future status of Constantinople."

St. Catharines, Jan. 21.—Lieut. Col. William Barleigh, who commanded the 19th Regiment, was on the stand this afternoon at the military enquiry into the finances of the 19th Regiment while doing frontier duty. He was questioned at great length by President Cuthbert and other members of the court. He was asked a number of questions, including one as to the rationing pay of the men. He was asked how much he was drawing for allowance and he said he was drawing \$2 a day for it. Very reasonable, he thought. He got \$10 a month for it. CAIRO AND CAPE TOWN ARE LINKED UP BY AIR SERVICE

Twelve-Week Trip Out to One Week Will Open Up Africa.

(A. P. Special Cable.)
London, Jan. 22.—Cairo and Cape Town, representing the extremes of the African continent, have at last been linked up by an air service. The British Air Ministry has announced that the air route, over which engineers have spent long months of labor, makes great difficulties is finally ready for traffic. This means that the time heretofore required to traverse the continent—from ten to twelve weeks—has now been cut down to about one week, and that heretofore secluded sections of Africa will be opened up to the world.

U.S. FREIGHT VIA FALLS ALSO, AND ALL GOODS TO EUROPE AS WELL

Mr. Allan Purvis, General Superintendent of the C. P. R. Ontario Division, stated last night that he had not heard officially of any embargo at the Niagara frontier, and that so far as the Canadian Pacific is concerned, everything is running smoothly, and that all the United States ports of entry are open to their trains.

Montreal, Jan. 21.—Serious results for Canadian shippers, both exporters and importers, are feared should the announcement of an embargo on all freight moving east from Canada to the United States be made. Attention of Canadian shippers is being called to this important point by the Railway Association of Canada (Railway Way Board). It will affect not only Canadian goods moving into the United States, but also either for shipment to Europe or for trans-shipment to other parts of the world. The embargo would close off the eastern movement of United States freight which usually runs via the Great Lakes to the Niagara frontier. It is suggested that Canadian importers may also be affected by the possible delay of freight coming from the United States by way of Niagara. The railway

SOLDIER SETTLEMENT COLONY IN THE NORTH IS CONDEMNED Must Improve Situation or Expulsions Will Fill the Asylums Non. Carmichael, of Drury Cabinet, Scathing Criticises in His Report

Toronto, Jan. 22.—"I have little hesitation in saying that if something is not done soon to relieve the situation we shall have recruits for our insane asylums from the colonies."

These are the concluding words of a report which Hon. (Col.) D. Carmichael, Minister without portfolio in the Ontario Government, delivered before the Cabinet yesterday with regard to conditions at the Kamushkan soldier settlement, which was established by the former Conservative Government. Col. Carmichael is the representative of the soldiers in the Ontario Government. He recently visited the camp and made a thorough investigation of the many complaints that have been made for months past by the settlers living in the settlement. While some of the causes of the discontent among the soldiers, Col. Carmichael regards as trivial, his report undoubtedly substantiates in a general way many of the statements made both during the Provincial election campaign and since relative to conditions there.

MAJORITY HAVE GRIEVANCES

"A great deal of discontent exists among the soldiers," Col. Carmichael states in his report. "The majority of settlers have grievances to be redressed. The land is very difficult to clear, as it is densely wooded and covered with stumps. The soldiers are not given enough land to clear, and the timber is small, averaging about six inches in diameter. The soil is all unfit for pulpwood. When cut down the stumps and logs are left in the ground stumped. This last is a very slow expensive process, and some of the stumps are not to be blown out. Some pieces of land have cost as much as \$1000 to clear. The houses built by the settlers proved very expensive. Under this connection, Col. Carmichael has to have been made by Mr. C. G. (Deputy Minister of the Interior) last October that a qualified valuator would be sent up to make an estimate of material and labor involved in the construction of any house over and an adjustment made. The only promise I made while there was that I would audit on the settlement being kept."

"The system of leaving stumps and logs in the ground, seemingly, cannot be carried on in such a manner as to satisfy the settlers and the Government."

"There are several complaints made by the conduct of various officials in the colony, the management of the stores, etc. These I am inclined to recommend that the scheme be continued mainly as it is, with the exception of a few minor changes from a colonization and agricultural standpoint and that the settlers be left for his services day after day."

SETTLERS' CROPS PROZEN OUT

"Turning to the conditions in the field that in every month during 1918 the temperature fell to freezing point, so that it was impossible to harvest any very hardy crops. It is possible that when large areas become cleared the settlers will be able to be lessened." It points out that on the Dominion Experimental Farm, where there is a clearing of 1,000 acres, crops matured, whereas in the small clearings the settlers' crops were frozen out.

"Then the proposition arose, 'the conditions which are most favorable to the settlers' crop production.' As

ASQUITH FOR PASLEY SEAT Unionists Likely to Stand Aside From Fight.

Permit Straight Liberal vs. Labor Test.

London, Jan. 21.—Ex-Premier Herbert Asquith is expected to return to Parliament through the by-elections in the Paisley constituency arising out of the death of Sir J. McCallum. The local Liberals adopted Mr. Asquith as their candidate to-night. There is already a Labor candidate, J. M. Biggar, in the field, and as the Liberal Unionists have previously decided not to contest the seat if Mr. Asquith were elected, the result of the fight between the Liberal and Labor candidates, unless, as is considered probable, the Unionists run a man.

In view of the result in the recent by-election (West Riding of Yorkshire) by-election, when the Labor candidate, Mr. Asquith, was elected, it is not to be expected that the Liberal Unionists will support Mr. Biggar. Mr. Asquith was very much surprised to find that his name was put forward for the seat. He is now in the hospital, and his recovery is being watched.

CONVENTION OF THE Y.M.C.A. Closer Co-operation With the Churches Planned. Service as a Condition of Membership.

Toronto, Jan. 22.—A decision to revise some of the conditions of membership in the Y. M. C. A. with a view to bringing the association into still closer relationship with the church in the great work planned for the future was reached at the national convention meeting at the Central Y. Y. yesterday, following the presentation of the report of the committee on church construction. One of the outstanding changes favored was the making of church service rather than the payment of a fee the essential condition of membership, the fee to be made nominal and the use of privileges left to the discretion of the board.

The report was presented by the chairman, Rev. Col. C. W. Birks, of Montreal, who pointed out that although the Y. M. C. A. has been a world leader since the war, it was really the same humanity as before. The overseas work of the Y. M. C. A. has been given that lead a new perspective be set.

Shouly, say, "Go ahead, we are with you."

J. M. Wilson, of Toronto, the engineer who has had charge of the Hamilton Harbor development, stated that the future of the work would be greatly enhanced by securing such plans as were submitted last night. Thirty feet of water at the foot of the dock would then be five feet deeper than the present condition.

The speaker stated that now is the time to decide the problem.

"History in the United States shows that the development of harbor waters was the private work of individuals. The private work of individuals in Hamilton at the present time, as time goes on, the improvement will cost more and more. Do it now!"

Mr. Wilson, Chief Engineer and Manager of the Toronto Harbor Commission, said that the Commission presented many interesting lantern slides depicting Toronto Harbor in 1912 and the development since that time.

"It was through the beginning of that work that the Commission was established, although the population was close to half a million," said Mr. Cousins.

"The idea that Toronto, as a city, is a part of the Hamilton program, is a fallacy. That 'big town' idea is an outgrowth. Toronto is a city, whatever is for the good of Hamilton is good, equally, for Toronto."

WOMEN ASK INCREASE OF 20 PER. CENT.

More Than That in Some Cases Proposed by the Men.

SPECIAL COMMITTEE

Will Consider Matter and Report at the Next Meeting.

The average life of a woman is only 47 years. It is a very hazardous occupation and for that reason we feel we should be paid a special salary," said Mrs. C. H. Taylor, in appearing before the Fire, Police and Jail committees last night, and urging that the increase asked for by every member of the department be given.

Fireman, police and jail guards, presented law increasing salaries to the committee. The committee was asked to increase the salary of firemen from \$10.00 to \$12.00, police from \$10.00 to \$12.00, and jail guards from \$10.00 to \$12.00.

Mr. Gilmartin said that with present prices the firemen's pay could not make ends meet. That was a fact, but he said that the firemen were not the only ones who were not getting paid enough.

Chief Taylor said he paid \$125 for a bag of potatoes on Central market only a few days ago. That was a fact, but he said that the firemen were not the only ones who were not getting paid enough.

Hon. Manning Doherty Not Able to Come.

Agitation, which was to speak at the annual convention of the Hamilton branch of the Royal Canadian Legion, was threatened with pneumonia. Hon. P. C. Hagg, who was to introduce Mr. Doherty, received a telegram containing this information this morning. Mr. Doherty's place was taken by Mr. Hagg.

LADLAW CHURCH

Will Fire Year

School Grew From 9 to 540 in Seven Years.

Increase of \$300 in Salary of Pastor.

Laidlaw Memorial Church held its annual congregational meeting last night, with large and enthusiastic attendance. After devotional exercises conducted by Rev. R. M. Dickey, Mr. James Howarth was elected chairman and Mr. R. M. Dickey, secretary.

The session reported gratifying results for a year of hard work, progress in the church, and the school. The school, which was founded in 1880, has grown from 9 to 540 pupils in seven years.

The minister mentioned that he had conducted his line of work since 1913 in 1918, and that he was now in his 10th year. He mentioned that he was now in his 10th year.

Mr. G. Smith reported for the Board of Christian Education that the total amount for the year was \$2,648. The minister's stipend was increased by \$300.

Jack Crossley reported excellent progress from the boys' physical culture class, and Miss Blackburn from the girls' class.

Geo. Miller, superintendent, and Miss Grace, treasurer, presented splendid reports of the Sunday school. When they joined the Sunday school, there were only nine pupils. Last Sunday there were 540. A new building is now being erected on the site.

Mr. Dickey reported for the 'Upstreamers' class, and Mrs. Blackburn for the 'Downstreamers' class. Both classes made splendid progress.

The Forward Movement committee reported that they had been successful in securing the services of Mr. Hagg as a speaker for the year.

The Women's Guild, which was founded in 1880, has grown from 9 to 540 members in seven years. The guild is now in its 10th year.

The Ladies' Aid Society, which was founded in 1880, has grown from 9 to 540 members in seven years. The society is now in its 10th year.
